(http://twitter.com/share?url=https%3A%2F%2Fwww.trackdish.com%2Fbest-satellite-finder%2F&text=Know,%20which%20satellite%20finder%20is%20Best%20for%20home%20dth?)

Know, Best Satellite Signal Finder in India for All DTH
Digital Sat Finder
Digital Sat Finder
Analog Sat Finder
Digital S2 Sat Finder

Now a days in India, millions of people using direct to home services including Doordarshan DTH and other private direct to home services. So if you using direct to home service then you must buy digital satellite finder to troubleshoot your current dth system during the “No Signal” problem at home.

Here we will let you know which satellite finder is good for your dth system. currently, in the market three types of satellite dB meters available.

1. Analog Satellite Signal meter

2. Digital Satellite Signal meter
3. Digital S2 Satellite Signal meter

So you may have already bought any one of above satellite signal finder, then, don't worry, all are able to track dth signals.

1- Analog and Digital satellite signal finders-

Both the finders work the same, there are mainly two differences between analog and digital satellite finder.

A) Display

Digital satellite meter has a digital reading display, where analog has analogue display.

B) Intensity

Digital satellite meter has enhanced signal intensity, when you rotate the antenna, it will capture satellite signal spectrum very fast.

2- Digital S2 Satellite finder –

Digital S2 Satellite finder mainly used by professional installers, who provide installation service for TATA Sky, Videocon d2H, Dish TV, Airtel Digital TV, Zing Digital, Jio DTH, and Sun Direct dth.

Digital S2 Satellite dB meter is totally different from above satellite finders. Because it has lots of features like –

- Digital Display
- Battery Backup (Optional)
- Add Satellite Function
- Add Transponder function
- BER and MER Reading (Optional)
- Satellite Spectrum Reading (Optional)
- Auto Scan (Optional)

** Optional. Means some brands provide these features.

So let's decide which one you should buy –

For Home users-

If you are a home user then we suggest you buy Digital Satellite dB Meter, it is a low-cost device will help you every time when you lost you're direct to home signals.

For Professional users –

If you want a hi-tech device then you can buy "Digital S2 Sat Signal finder", But it is a costly device If you have dth shop then you should buy it is.

From where to buy satellite dB meter?

You can visit nearest dth shop to buy satellite finder, If you are not able to find in near market then you can buy from online shopping websites in India like Amazon (https://amzn.to/2LrwxN4), Marginprice (https://www.marginprice.com/sat-finders), etc.
